

World leader in vehicle
de-pollution technology

SEDA ModuleOne

P-528200

The ModuleOne START is a compact and professional ELV de-pollution solution! The system is easy to install, has a small footprint with SEDA built quality at an affordable price.

The ModuleOne START is the perfect solution for low volume dismantlers or scrap yards who prefer to use equipment to de-pollute their vehicles professionally within established guidelines.

Incorporating powerful 1 inch pumps and our award winning Regular TankDrilling-Machine, the ModuleOne START is costeffective without sacrificing safety or quality.

Petrol, diesel, engine and gear oil, radiator coolant, brake and wiper fluid are efficiently and cleanly removed. We recommend the SEDA ModuleOne system for a productivity rate of up to 16 cars per day.

Your benefits:

- ✓ Best value for money
- ✓ Ideal for small businesses
- ✓ Superior quality
- ✓ Space saving
- ✓ Compact and efficient
- ✓ Fuel and waste oil filter
- ✓ Explosion proof ATEX certificated
