

World leader in vehicle  
de-pollution technology

## SEDA EasyDrain A-51027

Scrap car  
De-pollution system

**Bestseller**

### Your benefits:

- ✓ Compact and clean
- ✓ Quickly operational
- ✓ Pre-installed technique
- ✓ Powerful and durable
- ✓ Easy service
- ✓ Additional equipment
- ✓ Flexible und secure
- ✓ Explosion proofed  
ATEX certified  
TankDrillingMachine

„Universal and rapid use.  
The EasyDrain belongs to  
the very best what SEDA  
offers!“

Werner Borgfeldt  
SEDA Quality Management

The SEDA EasyDrain is an ideal solution to drain End-of-life vehicles (ELV) of all liquids. Individual pumps and specialist draining tools remove virtually all liquids in a safe and efficient manor.

Specially developed and focused on smaller dismantlers, the SEDA EasyDrain concept is very successful. The engineering and economic challenge was to find an optimal combination for a clean, efficient, but fast and cost-effective solution. This Drainage station fulfills all this requirements.

With the EasyDrain you can process up to 30 vehicles a day. The approval SEDA technology removes up to 98% of all fluids without spilling a drop.

#### Versions:

- SEDA EasyDrain **Basic**  
(SEDA TankDrillingMachine „heavy duty“ mobile with 1 swing-arm)
- SEDA Easy Drain **Compact**  
(SEDA SEDA TankDrillingMachine „heavy duty“ with 2 swing-arms)
- SEDA Easy Drain **Customized**  
(We can offer you a tailor made solution for your special requirements!)

#### Variety of configurations:

- **PD version** (combined pump for petrol (gas) and diesel)
- **CS version** (combined pump for coolant and screen wash fluid)
