

World leader in vehicle  
de-pollution technology

## SEDA MDS9 Container Jumboline

A-50154

### Your benefits:

- Robust and powerful system for large vehicles up to 10,000 lbs
- Mobile roll on roll off container
- Hydraulic roof rams that lock for safety
- With rear supports, can be operated with wind speeds up to 100 mph
- All connections are pre-installed

Leading Company  
of Austria

### Mobile Depollution System

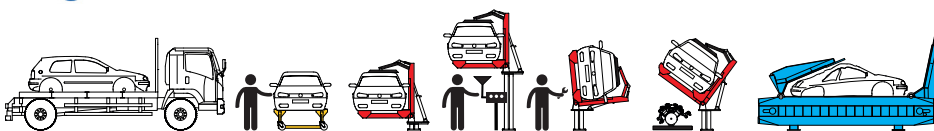

The MDS9 Container Jumboline – is a great solution for a mobile de-pollution system on the cutting edge of technology for End-of-Life Vehicles (ELV) for vehicles up to 4 tons including trucks and vans.

The MDS9 – Mobile Drainage Station is a roll on-roll off container with a complete integrated SEDA depollution system. The opened container cover functions as a roof for rain and sun protection, which is designed to withstand 100mph winds. Easy to open roof has integrated battery backup. A static vehicle ramp with a 10,000 lbs capacity is installed in the container as well as catchment areas and integrated work bench, tool box, etc.

The depollution system consists of the SEDA Heavy Duty Tank Drilling Machine on a robust swingarm, combined with fuel quality control units and powerful pumps for fast efficient fuel recovery.

The double waste oil funnels attached to the second robust swingarm, with a powerful pump to remove waste oil also fast and efficiently. Coolant and wiper fluid positioned on hose reels for ease of use.

## SEDA MDS9 Container Jumboline

A-50154

Side door for access

Additional working bench

Pre-installed quick-couplings for  
tank lines

ON/OFF switch for the pumps and  
manometers

Leading Company  
of Austria

### Mobile de-pollution system

All the required hoses and quick couplings are preinstalled in the container. The MDS9 Mobile Drainage Station is optionally equipped with 5 high quality tanks (for petrol, diesel, waste oil, antifreeze & wiper fluid).

A Power-And-Air platform is also available for self sufficient operation of the system.

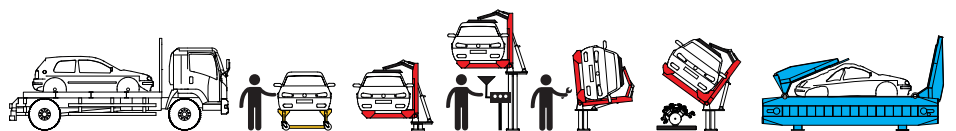

### TECHNICAL DETAILS

<b>Air pressure:</b>	123 psi - 47 cfm
<b>Fluids:</b>	Petrol/Diesel Waste oil Coolant Washer fluid Brake fluid
<b>Load cap.:</b>	4.000 kg
<b>Size (closed):</b>	8,5 x 2,4 x 2,4 m
<b>Size (open):</b>	8,5 x 2,4 x 4,8 m

### ORDER INFORMATION

**A-50154** SEDA MDS9  
Container with Jumboline  
vehicle rack

**TPF5 Tank platform** with  
storage tanks for Petrol, Die-  
sel, waste oil, washer and  
coolant fluid
