The SEDA CableCutter ICS-S40 is the perfect tool for cutting aluminum and copper electrical wires.

This battery-powered device comes in a convenient carrying case, ready for immediate use. It stands out with its high performance, wide cutting range, and long battery life. The head can be rotated endlessly.

The cutting head is specifically designed for cutting fine and multi-strand, non-armored electrical wires with a maximum diameter of 40 mm.

360°

Set Contents (Carrying Case): CableCutter ICS Li-ion battery charger, Software & USB cable

⬥ TECHNICAL SPECIFICATIONS

Cutting force	max. 50 kN
Operating pressure	approx. 550 bar
Cutting range	max. cable size ø 40 mm (depends on cable type)
Cutting time	3-6 sec
Sound pressure level	70 dB
Weight	3,1 kg (with battery)
Battery power	18 V DC
Battery capacity	2 Ah
Battery charging time	approx. 30 min
Dimensions	447 x 180 x 82 mm
Operating temperature	-10°C .... +40°C
