

SEDA MDS2 PLATFORM JUMBOLINE

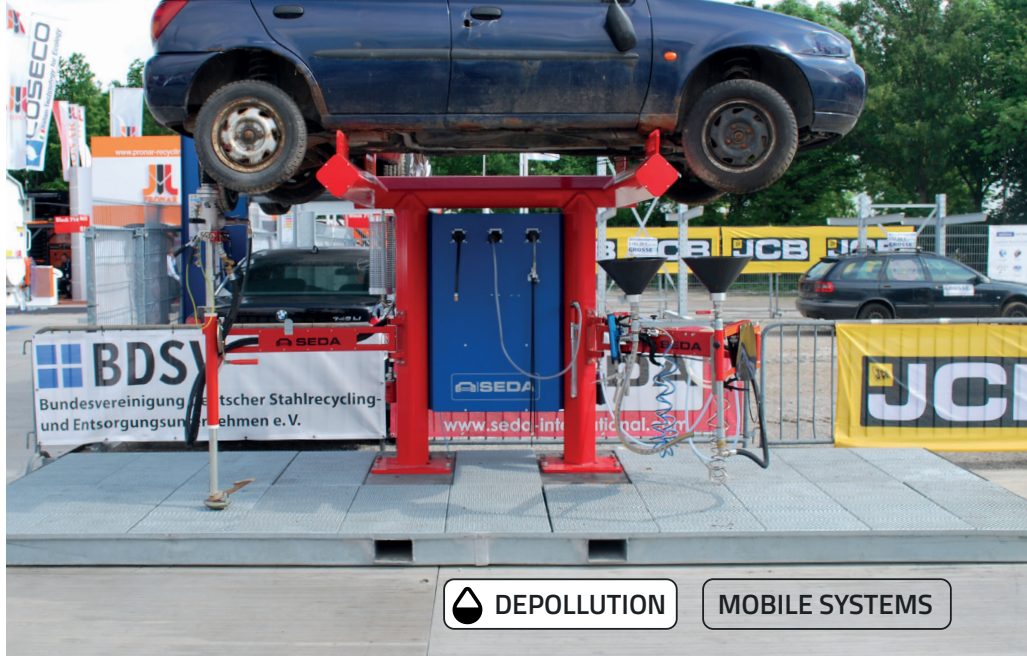

A-528197

Also available in a Heavy Duty version

BENEFITS

- Complete mobile solution for depollution
- High safety standards with CE and ATEX certification
- Integrated pumps
- Welded galvanized platform
- Galvanized safety flooring

DEPOLLUTION

MOBILE SYSTEMS

Mobile End-of-Life Vehicle Depollution System

The Jumboline platform is built for those large and heavier vehicles making light work of the depollution process.

A Jumboline vehicle carrier is installed on a galvanized platform, providing a stable and corrosion-resistant base. Visual inspection of the fuel quality is done using our fuel quality control unit. Additionally, fuel and oil filters are integrated in our system to ensure clean and efficient fluid processing. The tank drilling machine is mounted on a swing arm and facilitates easy operation with a gas-assisted height adjustment. The other swing arm is equipped with pneumatically height adjustable dual oil funnels for draining engine and transmission oil simultaneously.

The system also includes a compressed air connection with an 8-meter hose reel for flexible usage. A coolant connection with a 7-meter hose reel and a coolant piercing lance, as well as a windshield washer connection with a 7-meter hose reel and a suction lance set, further enhancing its functionality.

For fast and efficient removal of brake fluid, rubber brake nipples with clear hoses are used. The system comes standard with an air processing unit for both a dry and oiled air, ensuring the reliable operation of all pneumatic components.

Mobile End-of-Life Vehicle Depollution System

- 1 - H.D. Tank Drilling Device
- 2 - Jumbo Type Vehicle Carrier
- 3 - Fuel Quality Control unit
- 4 - Fuel Control System
- 5-9 - Double Diaphragm Pumps for gasoline, diesel, used oil, coolant, and windshield washer fluid
- 10 - Vacuum Unit for Brake Fluid
- 11 - Pump Housing with tools, hose reels, and filters
- 12 - Swivel Arm for Tank Drilling Device
- 13 - Swivel Arm for Used Oil with dual funnels
- 14 - Galvanized Steel Platform with safety flooring
