

## SEDA PLASTIC SHREDDER

Y-32020

Powerful blades for effective shredding of various plastics.

### BENEFITS

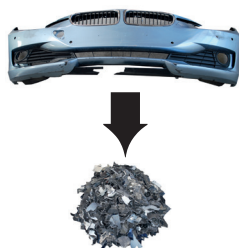

- Efficient shredding
- Simple Operation
- Two compression zones safeguard gears and ball bearings
- Flexible loading and unloading options

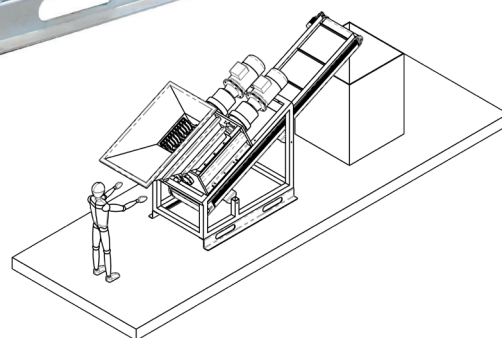

Shredder designed specifically for plastic parts

The powerful blades of the plastic shredder efficiently process a wide range of plastics, including bumpers and plastic barrels up to 200 liters in size.

Process small parts via a conveyor belt, which empties them into designated containers
