

## SEDA TPF5

A-528195

Integrated forklift pockets

DEPOLLUTION

ACCESSORIES

### Mobile fuel depot

The SEDA TPF5 (Tank PlatForm) is equipped with five tanks, offering a comprehensive solution for storing operating fluids from end-of-life vehicles.

Two 900-liter AI tanks are designated for storing gasoline and used oil (also suitable for contaminated substances), while a 900-liter AIII tank is available for diesel. Additionally, two 750-liter AIII tanks are provided for windshield washer fluid and coolant. These tanks are arranged on a platform specifically designed for vehicle fluid drainage operations.

The key advantage of this system lies in its mobility: a specially designed forklift attachment enables the platform to be effortlessly relocated to different sites. With this SEDA solution, the storage of fluids becomes efficient and professional.

#### Storage Tanks Include:

- Gasoline
- Diesel
- Used Oil
- Coolant
- Windshield Washer Fluid

#### BENEFITS

- Integrated forklift pockets for mobility
- Compatible with all SEDA systems
- All connections centralized in one location
- Equipped with pumps, gauges, and dispensing nozzles
- No additional tank line installation required

Suitable for all SEDA systems

Integrable into the SEDA MDS6 container for transport

TPF5 with canopy

The tank platform was developed in combination with the SEDA MDS6 container, enabling particularly flexible usage. For instance, the platform can be stored directly inside the container for transport. A specially designed fixture secures the platform and its tanks during transport within the container, ensuring everything remains stable and safely stowed.

**TECHNICAL SPECIFICATIONS**

Gasoline	AI Tank 900 l
Diesel	AIII Tank 900 l
Used oil	AI Tank 900 l
Windshield washer fluid	AIII Tank 750 l
Coolant	AIII Tank 750 l
Dimensions	2,5 x 2 x 2,1 m
Empty weight	1.500 kg
Max. weight	5.700 kg
Capacity	4.200 l

All tanks are equipped with a level indicator, vent pipe, and tank truck connections. Tanks for diesel and gasoline include an electric pump and fuel nozzle

**ORDER NUMBER**

A-528195	TPF5 Tank platform with storage tanks for gasoline, diesel, used oil, coolant, and windshield washer fluid
A-527800	Recommended system SEDA MDS 6 Container including a depollution system, vehicle carrier, and accessories
A-528194	Mounting kit for MDS6 und TPF5
