Windshield cutter

The device provides a fast and effective solution for cutting out windshields in just a few seconds.

Thanks to its special milling technology, cutting can begin at any point without the need to pre-drill a hole. The unique cutting angle of the drill minimizes the risk of injuries caused by cut glass or splinters.

A powerful extractor efficiently removes glass dust and splinters, collecting them in a separate container to ensure a clean and safe working environment.

TECHNICAL SPECIFICATIONS

| | |
|-------------|----------------------------|
| Speed | WS-Cutter 11.000 rpm |
| Power | 1.300 W |
| Weight | 2,1 kg |
| Voltage | Extractor 230 V / 50 Hz |
| Power | 1.500 W |
| Noise level | 60 dB |
| Weight | 10 kg |

Extractor included ►
