

## SEDA DRAILIFT

A-51090

### Depollution and dismantling system

The SEDA Drainlift seamlessly combines an electro-hydraulic and pneumatic single-column lift with the proven SEDA depollution system.

The Drainlift system complete with depollution makes light work of vehicle processing and basic dismantling tasks can be performed effortlessly. This system is also highly versatile, suitable for use with a catchment tray, a mobile platform, or integrated into a container.

Forklift free loading with trolley

### BENEFITS

- Depollution and dismantling system
- Forklift free loading and unloading possible with the SEDA Trolley
- Compatible with a platform or container setup
- Electro-hydraulic/pneumatic control system (EX-certified)
- Strong and robust
