

SEDA EASYDRAIN

A-51027

Version with platform

BENEFITS

- Quickly ready for use
- Pre-installed technology
- Easy maintenance
- Comprehensive accessories
- Robust and safe
- Explosion protection with ATEX tank drilling machine

 DEPOLLUTION

STATIONARY SYSTEMS

End-of-life vehicle depollution system

The SEDA EasyDrain is the ideal solution for efficient, safe and quick depollution of end-of-life vehicles.

Key advantages of this system include its simple pre-installation, quick assembly and service times. Powerful suction pumps and the proven SEDA tank drilling machine, along with two practical swing arms and extensive accessories ensure an effective and quick drainage rate.
