

SEDA JUMBOLINE HEAVY DUTY

A-51073

Jumboline Heavy Duty and mobile

BENEFITS

- Turn key
- Mobile
- Integrated drainage
- Powder coated platform
- Galvanized anti-slip safety grates
- High safety standards with CE and ATEX certification

 DEPOLLUTION

STATIONARY SYSTEMS

End-of-life vehicle depollution system

The Jumboline system comes fully equipped with a Heavy Duty 10,000 lb vehicle rack, integrated drainage equipment with high flow double diaphragm pumps that all sit on a mobile base. This complete system ships out turn key from our Metro Atlanta facility. The mobile base has fully galvanized anti slip safety flooring and built in fluid catchment to catch any spills. The fuel tank drilling machine is mounted on a swingarm and assisted height adjustment. In-line are strainers, fuel and oil filters to help remove particles from the extracted fluids, this also helps protect the pumps from excessive wear. The fuel quality control unit allows the operator to visually inspect the extracted fuel and divert any heavily contaminated or discolored fuels to a separate storage tank.

Standard our system come with double oil funnels so engine and transmission oil can be extracted simultaneously. Coolant is extracted by stabbing the lower radiator hose with our coolant lance. All Jumboline systems are built to order and fully customizable.

Additional fluids can be added for removal or retrofitted later like wiper, brake and DEF fluids as well as shock absorber oil. The setup can also be fitted with front mounted hose reels for additional fluids or air connections. All units come with air processing units with air dryer and lubrication.

SEDA JUMBOLINE

A-51073

- Optional oil drill for engine, transmission and differentials

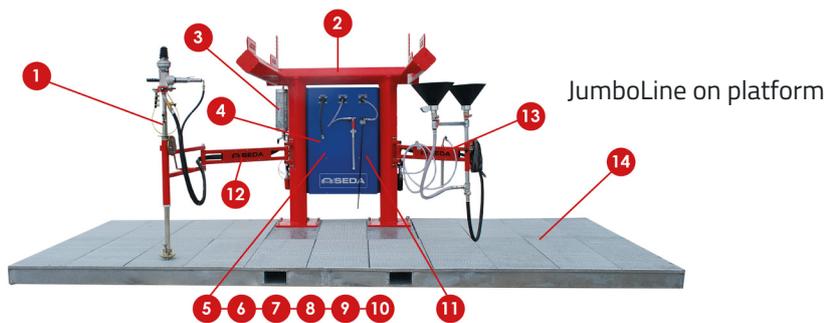

Air processing unit and fuel quality control

End-of-life vehicle depollution system

- 1 Heavy-duty tank drilling machine
- 2 Jumboline 10,000 lbs vehicle rack
- 3 Fuel quality control unit
- 4 Optional air connection
- 5-9 Integrated high flow double diaphragm fluid pumps
- 10 Vacuum kuli for brake fluid (no image)
- 11 Pump housing with tools, hose reels, and filters
- 12 Swing arm for tank drilling machine
- 13 Swing arm with double funnels for waste oil
- 14 Mobile platform with galvanized safety flooring
