

DEPOLLUTION

MOBILE SYSTEMS

SEDA MDS2 PLATFORM DRAINLIFT

A-51091

Mobile End-of-Life Vehicle Depollution System

The SEDA MDS2 Platform DrainLift combines an electro-hydraulic and pneumatic single-column lift with SEDA's proven drainage technology on a mobile platform

This combination enables not only efficient depollution but also the straightforward execution of basic dismantling tasks directly on the platform.

Pump housing with dual fuel quality control units for visual inspection of the gasoline and diesel quality

Wheel dismantling

Door dismantling

BENEFITS

- Depollution and dismantling in a single system
- Mobile complete solution
- High safety standards with CE and ATEX certification
- Electro-hydraulic/pneumatic control system (Ex-certified)

Easy access to the engine compartment

DRAIN LIFT

With quality control, HD tank drilling machine on swing arm and dual oil funnels

The SEDA DrainLift is sold stand alone, on a platform or in a container.
